Registered Drama Therapist NADTA/ANZATA

Leonie, an American trained Drama Therapist, lecturer and teacher works with special needs children individually and in groups. She tailors interventions specific to the needs of each individual, using the unique benefits of Drama Therapy. This method is highly successful in children with delayed social skills development. Leonie is a qualified secondary teacher and an accredited practitioner in Neuro-Dramatic Play, Narradrama and Art/Drama Therapy.

Drama Therapy/Social Skills Training

Drama Therapy is a unique way of using Drama games, techniques, role-play and puppetry to help children learn how to communicate and read the hidden signs, whilst increasing self-confidence, self-awareness and building social skills. The program sessions will follow a consistent formula, introducing a specific social skill. It will emphasise the importance of self regulated learning and encourage self-talk and use modelling of social skills through role play. The children's experiences will be processed through structured and unstructured activities.

The program will include:

- Greeting others/Noticing others
- Working and Playing Together
- Interpreting and Responding to Non-Verbal Cues
- Expressing Feelings
- Building Conversations/Building Friendships
- What's so funny/Reading the signs
